### "The end"

Visit "[The end](#)" on MotoLyrics.com

Something inside your body's making me  
Die all over, feels so unreal  
Fight the feelings, they have no meaning  
We're drowned inside you

We've come far  
This is the END

I won't ever be sucked in to this shit  
Feels I'm burning away this time  
Dirty water begins to suffocate  
Put me out

We've come far  
This is the.  
END

Tell me when did you think I'd end this  
It felt so good, yeah I may have lied  
Pushing harder just like you wanted  
But in the end, you would never try

We've come far  
This is the end of all we are (All we are)  
Something we decide (We decide)  
Ending the world we're lost inside
