"Why"

Every time things go wrong for me I start to question
everything I believe
I just want to live my life
And escape all the pain and strife
Things go right and things go wrong
Friends die and that says so long
Why try you'll soon see why
It all works out for the best
In the end Why do I try?
Why do friends have to die?
Why am I there for you now?
Why do I care?
Life just isn't fair
My God is there for you now
Time flies by
As I lose sight of everything
The things that brought me here
Where to go, what to do
I'm confused, feel abused
And I am living in fear
Things go wrong and things go right
I recount my mistakes, lying in bed at night
Why try, we'll soon see why
It all works out for the best, in the end
Why do I try?
Why do friends have to die?
Why am I there for you now?
Why do I care?
Life just isn't fair
My God is there for you now
Why do I try, when there's nothing I can do?
And why do I try when there's nothing I can do?
And why do I try?
