Here believe a night enchanted seen  
Here the hopes of Gods are planted, dream  
Remember, remember all we do not see  
Surrender, surrender all we wished to be

Lost and forgotten like our Akhenaten  
Body and spirit, no one can hear it, lost in eternity  
Forever hear us, forever hear us, forever hear us  
Forever where our hopes have never ceased to be

Death will embrace us, hold and encase us  
Time may deface us, will God retrace us?  
Time speaks through seasons, God speaks through  
reasons  
Kindness, compassion not random fashions  
Yet to be, yet to be, yet to

Child of the night, dreams there alight  
Anyway your heart does want to know that they will walk  
with thee  
Each grain of sand falls as was planed  
And within each precious moment are the things yet to  
be

Night in it's whispers, dreams all his gestures  
Stars fear no distance, fear no distance  
For they will always guide you through eternity

Here believe a night enchanted seen  
Here the hopes of Gods are planted, dream  
Remember, remember all we do not see  
Surrender, surrender all we wished to be

Lost and forgotten like our Akhenaten  
Body and spirit, no one can hear it, lost in eternity  
Forever hear us, forever hear us, forever hear us  
Forever where our hopes have never ceased to be

Death will embrace us, hold and encase us  
Time may deface us, will God retrace us?  
Time speaks through seasons, God speaks through  
reasons

Kindness, compassion not random fashions  
Yet to be, yet to be, yet to
