Kathleen, you're the queen of the music scene
i've seen all your words that you write
oh you're so mean
you used to be a stranger
but now you're my neighbour
want you to be my everything
i wanna go to bars that you go to
in hope that i'll find you
and buy you a drink

and i spent a month trying to get attention from you
and i spent a month doing everything i can to
it's your party and i just wanna be invited
it's your party and i just wanna be invited

Kathleen, i've got visions of you and i'm trying to sleep
i think it would be a good idea if we should mate

and i spent a month trying to get attention from you
and i spent a month doing everything i can to
it's your party and i just wanna be invited
it's your party and i just wanna be invited

(ahah)

and i spent a month trying to get attention from you
and i spent a month doing everything i can to
it's your party and i just wanna be invited
it's your party and i just wanna be invited
