

Lashes, The

"Safe To Say"

Visit "[Safe To Say](#)" on MotoLyrics.com

It should of been, it should of been, it should been, it
should of been a clue when all of your friends said
good bye and good luck when I started here with you.
I wanted to love you but you would of had too been
there.

I wanted to love you but you would of had to admit you
care.

What's the big idea?

I guess to safe to say its over.

I guess to safe to say its over.

I guess to safe to say its over.

Keep telling me, keep telling me, keep telling me, keep
telling me you love maybe this time it'll stick.

If all you wanted was a song I hope that this one does
the trick.

I wanted to love you but you would of had too been
there.

I wanted to love you but you would of had to admit you
care.

What's the big idea?

I guess its safe to say its over.

I guess its safe to say its over.

I guess its safe to say its over.

I guess its safe to say its over.

I guess its safe to say its over.

(*I can't tell what he says here) outside of the
cemetery.

Copy and sunrise.

Could this be a future in disguise?

What's the big idea?

I guess its safe to say its over.

I guess its safe to say its over.

I guess its safe to say its over.

I guess its safe to say its over.

I guess its safe to say its over.

I guess its safe to say its over.
