"Flow"

I'm always swimming
Against the flow of the tide
Kissing the life into something
That already died

I've been drowning forever
I'll let go, I'll dive
Into the river and flow

You said that you could here bells
In the traffic below
I could hear sirens and car engines
Fighting the snow

I've been drowning forever
I'll let go, I'll dive
Into the river and flow

I've been drowning forever
I'll let go, I'll dive
Into the river and flow

Flow, flow, flow
Flow, flow, flow
