Nobody feels like I do  
I've been walking, walking in the shadows of you  
I've tried pushing you  
Tried shoving  
Tried hitting you  
Even tried loving  
CHORUS:  
And then I walked away  
It felt so good  
When I walked away  
Yeah....  
Then I walked away  
It felt so good

Like you never thought I would  
Nobody feels like I do  
I've been faking too long for you  
I tried shouting  
I tried screaming  
I tried praying  
But I was dreaming  
CHORUS  
Nobody feels like I do  
CHORUS X2  
Nobody feels like I do
