Visit "[What You Are](#)" on MotoLyrics.com

What you are
I remember
How'd you get there
What you are
What you are

You need more forgiving
Than anyone else I know
When you get tired of living
Let me know

Some of our friends come with us
Some we leave behind
The ones who can't forgive us
I don't mind
I don't mind

What you are
I remember
How'd you get there
What you are

Let's dive in the deep end
I don't care if we drown
It's our town
It's our town

Keep me in the picture
Keep me up all night
That's alright
That's alright

What you are
What you are is what you are
Where you're going
What you are is what you are
I remember
What you are is what you are....
