"Go My Way"

I meet people every day
That talk the same & think the same
Just like scorpions on sidewalks
Aiming venom for the vein
All the stupid fucks
At least I see...the promise
In their eyes...what's yours is mine

Relax...don't bend or break...just wait in line

Discovering the light
In the darkest things you see
I worry 'bout the world
And what you think about me
Asking for a sign
But what is there to say
Forget about what's right
And go my way

There's liberty inside your mind
I taste it when we kiss
And we have everything we need...except
The everything we miss
And it was beautiful, but now I know
That it can be again...someone has to try

Relax...don't bend or break...just wait in line

Discovering the light
In the darkest things you see
I worry 'bout the world
And what you think about me
Asking for a sign
But what is there to say
Forget about what's right
And go my way

Still afraid of what comes after
So stay awake...awake
I am conscious is this
Everything we did it for
Never thought we'd get this far

So afraid we'll leave it all behind...now I'm

Discovering the light
In the darkest things you see
I worry 'bout the world
And what you think about me
Asking for a sign
But what is there to say
Forget about what's right
And go my way

Discovering the light
In the darkest things you see
I worry 'bout the world
And what you think about me
Asking for a sign
But what is there to say
Forget about what's right
And go my way
Go my way
Won't you go my way
Go my way
