A day seems so long since you've been away  
Loneliness is all that comes my way  
Oh, all I need is your sweet, sweet tenderness  
Please, please, don't see another man

A day seems so long without someone to love  
Makes me feel no way I'd love to feel  
Since you've been away, there ain't no happy days  
Loneliness is all that comes my way

Picture yourself without someone to love  
Then you'll know the way I feel inside  
Shed a tear or more and then you'll realize  
It takes someone you love to make you feel alright

Picture yourself without someone to love  
Then you'll know the way I feel inside  
Shed a tear or more and then you'll realize  
It takes someone you love to make you feel alright

A day seems so long without someone to love  
Makes me feel no way I'd love to feel  
Since you've been away, there ain't no happy days  
Loneliness is all that comes my way

I love you  
Loneliness is all that comes my way  
I'm lonely and I'm blue  
Loneliness is all that comes my way...
