"Love Makes The World Go Round"

Visit "[Love Makes The World Go Round](#)" on MotoLyrics.com

Love makes the world go round and round
Love makes the world go round and round

We're gonna make things better
Just you wait and see
You for me and me for you
We'll find so much joy in the things we do
We can make our wishes come true

Oh, I say
Love makes the world go round and round
Love makes the world go round and round

If you're looking down that's not the way to feel
My love is for real and you can feel the same way too
As long as it's you and me

Oh, I say
Love makes the world go round and round
Love makes the world go round and round

If you're looking down that's not the way to feel
My love is for real and you can feel the same way too
As long as it's you and me

Oh, I say
Love makes the world go round and round
Love makes the world go round and round
