From the first day we met until the day you said we're  
through  
I've been loving you, oooh  
From the first day you left and say you not coming back  
I've been missing you, oooh

Hear me singing  
Passion love, you're making me give in  
Passion love, you're making me give in

Since you've been gone the hard taste still lingers on  
I can't stop now, I've got to carry on  
Day by day  
In every way

Passion love, you're making me give in  
Passion love, you're making me give in

Since you've been gone the hard taste still lingers on  
I can't stop now, I've got to carry on  
Day by day  
In every way

Passion love, you're making me give in  
Passion love, you're making me give in  
Passion love, you're making me give in...
