"Sweet Sensation"

I could feel these trills walking over
When you held me tight
Now I feel those pain taking over
When you said goodnight

Oh, what sweet sensation
Lord, what strange emotion
You got love and devotion
And I won't forget your touch

Now there's nothing left for me to say, girl
Than stay in your world
You got someone's soul deep inside, girl
and love that's richer than gold

Oh, what sweet sensation
Lord, what strange emotion
You got love and devotion
And I won't forget your touch
