"Miss You Tonight"

Visit "[Miss You Tonight](#)" on MotoLyrics.com

I'll tell you stories, of nights defending glories
Painting pictures in your mind of the man I long to be
And I'll sing you songs to help us share a memory if it
means for just one moment, you could fall in love with
me

And there's not much I can do, but tell you how I'm
feeling with all of these miles in the way

chorus

I just had to call you, I just had to tell you that I miss
you, a little more everyday
The sunsets are nice, but they dont, keep me warm at
night and the ocean keeps wavcing good-bye
And I sure miss you tonight

I just saw a star blink, and somehow it made think of
how we'd say I love you with just a wink and smile
I've never been so tired, sometimes I feel like quitting
but remember that I'll be awake for just a little while(a
little while)

And there's not much I can do, but tell you how I'm
feeling
You're so far away

I just had to call you, I just had to tell you that I miss
you, a little more everyday(a little more everyday)
The sunsets are nice, but they dont, keep me warm at
night and the ocean keeps waving good-bye(waving
good-bye)

And I sure miss you tonight
I miss you tonight
I miss you
