And all this time we're free from the void
The world's darkening for me, and I can't fight
The wheels all the way, the underside

Don't break me down to sleep
Don't bruise my head
Don't break me down to sleep
Don't bruise my head

Please be clear - die, sleep
First we fear - I sleep
Fast asleep, fast asleep
First we can, then we sleep
Fast asleep, fast asleep

Don't break me down to sleep
Don't bruise my head
Don't break me down to sleep
Don't bruise my head
