Why deal?  
And end of will  
To fire along  
And it's not not not a lie

I don't know  
If I can lead  
The willing beast  
And he's why why why white?

Sordid lies  
And I'm awake  
Hot in here tonight  
And there's not a lot a lot of light

What are you and  
What is he?  
Opposed to war  
And I said said said aloud

Monkey ray  
And in my way  
The wing collide  
And it's low low lonely

Seems to be  
That we could eat  
The world of wars  
And I'm wow wow wow wound
