Trish! Your broken heart's a piece of this  
You hold it up, a vicious twist  
I guess you're better than your love  
You knew that, Easy as it was  
Come on  
Give me something special, something that I need  
She makes a try, a simple lay-o  
Gathered through the power sesho  
So I do hear your words  
Peel the skin away from my eyes  
And look in She's all the things that you put away  
So it's inside  
They slip it in  
I can hardly mix in  
Without it all, your sin  
Make the monkey crawl, my love  
So you will let me know.
