I caught my ceiling  
Motor Revvin'  
I only know the ceiling's down

I made my soul  
Yellow the sound  
I have the lace for under

Can't say you'll never keep my breath  
It's wise to think you'll try

I chrome the piston  
I steal the rattle only  
Make see the rattle  
She knows a bits around me

Reaching and gowing  
All things evolve  
Give me the air to think my  
Two hope for more  
Antenna  
She takes my center  
I stole your property  
I damn your house  
Don't hag me with your forcescreen

I chrome the piston  
I steal the rattle only  
Make see the rattle  
She knows the bits around me

Lacy and lonely  
Like a bug  
Baby fate a baby tee  
I'm in a line  
Gonna make a move  
Cross the State  
Rolling it wide  
Hey!
