(Do you think God wants to heal cancer?
Christians are commanded: Alcohol is good
A vision of crutches
You partake of the dust of the ground
I know some of you are frightened by this
You can go to church; and you're naked
and over the fowl of the air
And fire
Of course people said they're drunk
And this my friends is my prayer for you:)

Like Stee Moanin' Ludlow
Raffa-T, take the madness in my heart
Drunk man I a fra-ha-ha
Take a sip anad make it all go down
Hot lady for what a man
He takes a stand to damn
She's maybe on the train
Hit lock like a broken foamin' heart
