We mate to be relieved
sick animal come on and eat me
we seize to be released
but we don't want to lay
a lesson died a lesson done
we played and that's my secret
I've burned to keep them down
but that sick keeps coming around
i gotta crawl to be to buy
this sick just makes me stronger
stomp the sick or stomp the lies
and i will kill them all
i hate days all at once
i hate misery and it's no wonder
I've burned to keep them down
but that sick keeps coming around
