watch me

Waitress out dressed like nurses in bondage
Brought me the check, said I want you to sign this
Union boy standing next to the rastas
There's gonna be a strike and you ain't gonna stop us
Three men standing and they love what they do
You won't see it coming, cause they wanna surprise
you
Consider it done, they're gonna stand right by you
American punks don't care about you
Hollywood what you gonna do? [x2]

Don't say that you don't understand
Don't say that you can't comprehend
Don't say that you don't understand, this is California
Babylon, my man

You can take away the nights with sights with bright
lights
Seeks still ride, engage in street fights
Two to the head, pull around, he's dead
Suspect fled, caught up with bloodshed
No sign of hope, we fight and sling dope

Junkies to our left, no fix, they can't cope
Violence won't cease, hand me the crow piece
No peace or sleep, we fight with police

this is the city that'll make all your dreams come true
so pay attention

[chorus]

At last she had arrived, we turned in exhausted
Cocaine in her pocket, she can get busted
Once again she passes, now she's gone
Now she's with her friend, her beautiful young
She showed up on the scene, she was 17
Now she's 21, she does some more coke, she does
some more coke
She drinks some whiskey and she smokes some dope

She thinks she's a star [x4]
Do you know who you are? [x4]

[chorus]
