Go, Transplants won't forget it  
Past debit is will to test it  
Beat down, won't regret it  
Only when I can, I can accept it

And I speak for the one's who've been kicked hard  
'Cause I know what's it's like to be discard and uh  
Pushed down and beaten hard and when the times are  
rough  
I'm gonna go step hard

Pay any price, pay any verdict  
Transplants gonna take it on, that is for certain

See, see the devil smile, feed the devils child  
Pray to Jesus but you've laid it down for a low, low while  
Trouble, trouble ways, in a constant maze  
It's killifornia, so that's why I'm in a constant haze

Some are born to ride, I seem to wonder why  
These sons of bitches still alive and all my home boys  
die  
Can some change the past, I can take it back  
Well, I'd like to live what chance to die I gotta make it  
crack

Pay any price, pay any verdict  
Transplants gonna take it on, that is for certain

You, you might lose you might win, you, you might  
finish or just begin  
She, she's stretching the back so bend that bitch is  
lying again  
Intellectual vindication, low minded sophistication  
Imparity is my equation, you're gonna get my  
evaluation

Pay any price, pay any verdict  
Transplants gonna take it on, that is for certain
