Turn out the lights and close the door
Girl I've been waiting for you long.
We don't need to pretend anymore
Let's stop wasting time come here out on the floor.
Girl I'll be so gentle with you
I'll take my time, get you in the mood baby
And anything, girl you want done.
I'll do it for you baby
So don't you run.
Chorus:
Girl I'm still waiting
Waiting for love
Anticipating, you're all I think of
Girl I'm still waiting
Waiting for love.
Anxiously, patiently waiting for love.
Don't you deny what you feel inside (hmm)
You've wanted to be with me all of this time.
I can see the passion in your eyes (eyes)

You purposely sigh every time that I try.
Baby you're for me and I got what you need.
And baby don't you worry
Your love I will keep babe
Girl just relax and let your feelings go.
We'll take our time baby
So don't you run.
No no no no no no
Chorus
Baby don't you know the way I feel for you inside
Don't you know the way you make me feel inside
Don't you try and don't deny you know the feeling's
right (ooh oh
baby)
Baby don't you know the way I feel for you inside
Relax and let your feelings go
Don't you try and don't dent the feeling's right.
Chorus
