all the people saying the same thing - I tell you men it
just ain't fair -
no it ain't.
(hey - ho)
to get up you family and never loose your dignity - oh
no
stay together and one day you will all be free.
I've been all around the world - to meet the faces
everywhere.
(different faces)
the message's clear it's in the air - but you don't simply
even care.
(different faces)
there are kids around the world with eyes telling stories
you wouldn't
believe -
you won't believe.
and if one day you pass through there you will know
what I mean.
That is pray and misery it's part of the historyyeah
The killing dying for a cause they don't believe in
for someone else's free - yeah yeah yeah
I've been all around the world - to meet the faces
everywhere.
(different faces)
the message's clear it's in the air - but you don't simply
even care.
You don't care, you don't care
the message's clear it's in the air
but you don't seem to even care
seen any corner of the world
a double key to anywhere
fight the power love one another
do for yourself what to do for your brother
all we need is love and peace
not man with the power
not man with the creeps
I've been all around the world - to meet the faces
everywhere.
(different faces)
the message's clear it's in the air - but you don't simply

even care.
(even care)
(different faces)
I've been all around the world - to meet the faces
everywhere.
(different faces)
the message's clear it's in the air - but you don't simply
even care.
(even care)
(different faces)
(different faces)
(di
fferent faces)
