I told you once, I told you twice,
Baby you ain't nothing nice!
You must got up under my skin
Must have slipped something in my jeans.
I've seen it all I heard all your stories
You think it's cool, but baby you don't know me,
No, no, no!
Love can make you lose your head up in the sky
After all this time, you're still so fine,
Baby why, why, why?

Chorus:

After all the things that we've been through
Still can't get enough of you
We threw all these ups and downs
Ups in here, and you're still around!
All the things that we've been through
Still can't get enough of you
Put my time on my loving you
Yeah, you did me wrong,
You did me wrong!

You should know by now that I'm a queen
I shouldn't even have to say it,
You know what I mean!
We should start again, hey it's nice to meet you
Don't mess with me, my name is a riddle, yeah, yeah!

Love can make you lose your head up in the sky
After all this time, you're still so fine,
Baby why, why, why?
Love can make you feel you're ten feet off the ground
Fly so high that you can touch the sky,
Now how that sounds?

Chorus:

After all the things that we've been through
Still can't get enough of you
We threw all these ups and downs
Ups in here, and you're still around!
All the things that we've been through
Still can't get enough of you

Put my time on my loving you
Yeah, you did me wrong,
You did me wrong!

Love can make you think that you can really fly
But you're jumping, fly so low
That you don't know if you ever see the light!
Love can make you feel you're ten feet off the ground
Fly so high that you can touch the sky,
And finally you'll fine!
Just look around, all these ups and downs!
Heard it once, now you heard it before
Now I'll say I'mma walk right through that door,
Been leaning on your love for too long
I'mma do more than sing the song, now!

Love can make you lose your head up in the sky
After all this time, you're still so fine,
Baby why, why, why?
Love can make you feel you're ten feet off the ground
Fly so high that you can touch the sky,
Now how that sounds?

Chorus: (x2)
After all the things that we've been through
Still can't get enough of you
We threw all these ups and downs
Ups in here, and you're still around!
All the things that we've been through
Still can't get enough of you
Put my time on my loving you
Yeah, you did me wrong,
You did me wrong!
You did me wrong
And you got me singing sad, sad songs,
Why, why, why
Uhuu, why why, why?
