she was just a teenager living in a grown woman's
world
reading in her school books, had herself a little baby
girl
did it all with no father, left there to care on her own
got caught up in the street life, damn near lost her soul
chorus:
oh baby girl this is for you
oh baby girl this love is for you
ohh baby girl this is for you
don't ever give up, things are getting better yeah
Doing with a broken home, got tired of being all alone
caught up in a strip club, just to have some where to go
and money start coming in, need to still get herself a
home
now she's back in school and she's moving right along
chorus:
oh baby girl this is for you
oh baby girl this love is for you
ohh baby girl this is for you
don't ever give up, things are getting better yeah
ooh this love is for you
oh baby girl this love is for you
ohh baby girl this love is for you
don't ever give up ..things are getting better now
oh baby girl right when you talk ..
i'm turning round ,not to many people will be
put on the table €|oh babygirl you looking good now...
