I can't imagine my life without you baby, you taught me
how to breathe
Going in and out of relationships I was crazy send
someone for me
I thought I knew what love could do; you showed me
things real love
Without a doubt now I know all about, you showed me
things real love

[Chorus]
Right when I met you, the day that I met you, you
turned my world around
We fell in love
Right there from the start, you came and stole my
heart, you turned my world around
We fell in love

Now you and me, we got a jump on the future, girl we
gotta plant a seed
Have us a couple of babies as many as we can afford,
come on do it for me yeah yeah
I thought I knew what love could do; you showed me
things real love
Now I know all about, real love there's no doubt, you
showed me things real love

[Chorus]

Funniest thing that you never know, it's the funniest
thing when you're feeling low
Funny how that true love just showed up (just showed
upâ€¦)

[Chorus x2]
