Hey babe, ohh

Could it be your nice silky tone  
Ohh, that makes me want you girl  
Distant nights and love on the phone  
As I touch myself  
How I want you more  
The mood evokes  
Incense smoke and I'm burnin' up in temperature  
Ready to explode, yeah  
Come take a toke  
Let's float  
Baby on higher ground, oh

Baby come  
Float with me  
Let me take  
You to a place on higher, honey  
Baby come  
Float with me  
Face to face  
Build a body of fire, honey

Could it be your sweet sweet moan  
While I'm inside your world, your world  
A sudden glance that you give from across the room  
Come and take control, yeah  
Open up my favorite bottle  
Let the wind blow  
Create an atmosphere  
Stay right here  
Listen to the rain  
Your handprints on the window pane  
And its burning me up with the desire ohh

When I think about it  
I don't want to be without it  
Baby grab a hold  
Feel me in your soul  
Forever more, climb on higher with me  
You belong to me

Baby come  
Float with me  
Let me take  
You to a place on higher honey  
Baby come  
Float with me  
Face to face  
Build a body of fire honey

Baby come  
Float with me  
Let me take  
You to a place on higher honey  
Baby come  
Float with me  
Face to face  
Build a body of fire honey

Baby come  
Float with me  
Let me take  
You to a place on higher honey  
Baby come  
Float with me  
Face to face  
Build a body of fire honey

Baby come  
Float with me  
Let me take  
You to a place on higher honey  
Baby come  
Float with me  
Face to face  
Build a body of fire honey

I can feel you, I can feel you baby  
Whoa  
I can feel you baby, feel you
