There is not a love that a guy like me can't handle
I find it hard truly to be lost
Since you have been gone
Been sitting here steering at a candle
I can not wait to bring you home
I like you much
You are in my world
Unforgettable...
I like you much
You are in my world

I had to learn from love
I had to learn from you
Had to learn from this things we do
First it pick s you up
The it lets you down
... for change
Now you are gone gone
I hear... worked out little situations
And bring this... happy smile to the church... pretending
Cause everybody knows we were real close
But no more things we had...
Cause everybody knows we were real close
But no more you are gone

Chorus
I had to learn from love
I had to learn from you
Had to learn from this things we do
First it pick s you up
The it lets you down
... for change
Now you are gone

Chorus
I had to learn from love
I had to learn from you
Had to learn from this things we do
First it pick s you up
The it lets you down
... for change
Now you are gone

Chorus
I had to learn from love
I had to learn from you
Had to learn from this things we do
First it pick s you up
The it lets you down
... for change
Now you are gone
