She's like a medicine  
I can't get her out my veins  
Take any ole prescription  
As long as she comes with it

The side effects I feel  
Is that I need her  
I'm dreaming so damn hard  
It's on me for real

Tell me what's up you  
I gotta know  
I want to choose you as my habit  
Let's have it

I got to make it known  
You're all I need  
The only thing that I want

She's really more, more than enough  
My love is so innocent  
Because I am so into her  
She's all I want  
I've taken the plunge

And I've fall in hells over head

...

She's more than enough  
She's more than enough

She's got mad appeal  
Something about her about her  
That keeps me intrigued  
The simple things are ritious

She's  
It's getting harder  
To fall asleep at night  
Without her by my side

She's really more, more than enough

My love is so innocent  
Because I am so into her  
She's all I want  
I've taken the plunge

And I've fall in hells over head  
...  
She's more than enough  
She's more than enough

You're worth the world  
I'll give it all  
Anything to please you

Use all of my time  
Use it as you like  
I just want to be with you

She's really more, more than enough  
My love is so innocent  
Because I am so into her  
She's all I want  
I've taken the plunge

And I've fall in hells over head  
...  
She's more than enough  
She's more than enough

Yeah, Yeah, Yeah

Everything I've ever wanted  
Everything I need
