Verse 1:

Another day
Chance to make another chance
A fragile place
Running on empty
A smile so faint
Barely even breaks the space
Worlds own shoulders now

Don't be afraid
He who knows will make a way
His word alone is what has kept me
Born a son, king of eternal peace
Lay your burdens down

Chous:

If you catch me dreaming
Please don't wake me til I'm done
Just leave me sleeping
Until the morning comes
Just pass me over
Make believe that I'm not there
Just leave me be
Until the savior comes

Verse 2:

Another night
Makes her way to the morn
Sleep in peace, joy come early
A covered child, steps away victorious
Salvation holds joy for all of us

Cours 2x

Musical interlude

Choir comes in and Anthony ad lib
