people talking about how you run around
talking about how you are living life
i tell you i just can't complain
got me feeling good you got me misunderstood
i wish you would try to understand everything
take a ride in the .. don't wanna listen
i don't wanna listen people talking every where
i don't wanna listen but i hear
you go to hollywood misses hollywood
.. down the .. mind your business if she ain't or she is i
don't wanna know
writing on the wall .. i don't wanna miss it
people talking everywhere when the smoke .. begin to
clear
i don't wanna listen it's alright
is my life is my life
is alright and i am wrong
writing on the wall .. i don't wanna miss it
people talking everywhere when the smoke .. begin to
clear
i don't wanna listen it's alright
is my life is my life
is alright and i am wrong
