

Trash Can Sinatras "I've Seen Everything"

Visit "[I've Seen Everything](#)" on MotoLyrics.com

Soothe your fear, we're off where it's warmer
Here's to all of us, I know you are worried
We're leaving here, regret to inform you
Leaving everything, it's just that we've got to
Believe in everything, we're leaving everything
It was all a big mistake
It was all a big mistake
It was all a big mistake
And I've seen everything, we've seen everything
The last three cheers, we're shaking the bottle
Pull the cork on us, there is no tomorrow
No yesterday and we won't be sorry
We knew all along that we'd never matter
We're leaving here, regret to inform you
But soothe your fear, we're off where it's warm
And we've seen everything, I've seen everything
It was all a big mistake
It was all a big mistake
It was all a big mistake
Soothe your fear, we're off where it's warm
I've seen everything now and it was all a big mistake
We knew all along
