Evening sun in an english sky  
Orange as the pigeon's eye  
No one knew when you cycled by

That oranges  
Were made for you  
And the apples too  
Were made for you

Emily and the english rose  
Shining at the UFO  
Hand in hand with your eskimo

Oranges  
They fell for you  
And the apples, too  
All fell for you

Light shines through them  
The brightest of all was you  
And i just don't know what i

Would do  
Without your light  
Without your light tonight

Green wheelbarrow  
Bikes red and blue  
Orange drawer that winked at you  
All the colors that fell from you

And all the things  
That you went through  
And now everything  
Is enhanced by you  
And the oranges  
Were made for you  
And the apples, too  
All made for you
