Here come stainless Stephen looking for an affair  
Cuz even Stephen has the desire to  
Piss of somewhere  
But he won't take kindly to you if you openly stare.  
He's off on a foreign affair...  
So grab you bags and hold your handles.

Poly bags your day has come you're put to use at last.  
Poly bags, you're put to good use at last.

You're a bold coquette and you dress outlandishly,  
In the kitchenette such a beauty you brandish. don't  
point that at me.  
You'll make a tidy parcel on a Barcelona train  
His smokeyness your highness on an overland to  
Spain.  
Never to be seen again.. so grab your fags and blow  
your candles.

Poly bags your day has come you're put to use at last.  
Poly bags your day has come you're day has come  
you're put to good use at last.  
Poly bags your day has come you're put to use at last.  
Poly bags put to good use at last  
Put to good use at last, put to good use at last.
