Six o'clock on a Friday night,
Tell myself that it's alright
But it's not enough, it's not enough

I'm gonna light up the town tonight
So I can try, to say goodbye
But it's not enough, it's not enough

PRE-CHORUS

Well I want you to know that
You're all that I want and now
Well I'm begging you please ...

CHORUS

Don't go (don't go)
I could say that I don't miss you but
My heart knows (heart knows)
That you're the one for me (you're the one for me)
I never thought you would follow through
I never thought I would say this to you
Come home, cause I miss you

By the phone on a Friday night
Tell myself you're on the line
But it's not enough (not enough),
It's not enough

I need to find something else inside
So I can try to make this right
Cause I've got enough (got enough),
I've got enough

PRE-CHORUS

And I want you to know that
You're all that I want and now
Well I'm begging you please ...

CHORUS

Don't go (don't go)
I could say that I don't miss you but
My heart knows (heart knows)

That you're the one for me (you're the one for me)
I never thought you would follow through
I never thought I would say this to you
I never thought I would fight for you
You're the one for me (you're the one for me)

{instrumental}

Don't go, I could say that I don't miss you
But my heart knows that you're the one for me

CHORUS

Don't go (don't go)
I could say that I don't miss you but
My heart knows (heart knows)
That you're the one for me (you're the one for me)
I never thought you would follow through (follow
through)
I never thought I would say this to you
I never thought I would fight for you (fight for you)
You're the one for me

Don't go (don't go)
I could say that I don't miss you but
My heart knows (heart knows)
That you're the one for me (you're the one for me)
I never thought you would follow through (follow
through)
I never thought I would say this to you
Come home, cause I miss you
