CHORUS

I'll meet you around the bend
On that same street where you took my hand
I'll meet you at the end
On lovers lane where this all began

The morning breaks, I need a shave
Another day that I'm out on my own
You're probably fast asleep, socks on your feet
Dreaming of me cause I'm coming home

Remember what I said?

CHORUS

I'll meet you around the bend
On that same street where you took my hand
I'll meet you at the end
On lovers lane where this all began

I'll miss the way, the way you taste
Smile on your face when you're right next to me
I know that this will too, the way I move
When you do the things you do, you're all I need

Remember when I said?

CHORUS

I'll meet you around the bend
On that same street where you took my hand
I'll meet you at the end
On lovers lane where this all began

Oh and just as I
Put your lips on mine
Playing it out in mind
Pull you close (pull you close)
I won't let go (won't let it go)
No time for taking it slow
Well I'm home

I'll meet you around the bend

On lovers lane where this all began

CHORUS

I'll meet you around the bend
On that same street where you took my hand
I'll meet you at the end
On lovers lane where this all began

I'll meet you around the bend (meet you around the
bend)
On that same street where you took my hand
I'll meet you at the end (meet you at the end)
On lovers lane where this all began
Just take my hand, cause I'm home again
