"Requiem For A Dream"

I got my blade to slash your face
I'm the holocaust of human race
I see you dawn in a lake of blood
gettin' to much but is not enough

I wanna fuck you
I wanna kill you
I wanna rape you

And I save your needle paradise
numb white noise
skin frozen ice
Scary demons in your minds
this is the song of the heroin ties

I take you an age without remorse
without your saints without your cross
I watch you suffering down on your knees
just after death you will find your peace

I wanna fuck you
I wanna kill you
I wanna rape you

And I save your needle paradise
numb white noise
skin frozen ice
Scary demons in your minds
this is the song of the heroin ties
