I see you and I don't hesitate
Something about you...there's no mistake
Our eyes meet
You're sending me a message loud and clear
Don't waste time on pleasantries
Get your body over here

Insatiable

Don't wanna
Just get my
Let's get gone

Don't need a cigarette
There's only one real hit
I need to get it on

Cos it's just you and it's just me
But this ain't love, this ain't
Lust for pleasure, I'm insatiable
I need to get it on

Insatiable

Had fun working up a sweat
But this night is getting old
I'll slip away in a little while
Leave your sheets growing cold

Cos it's just you and it's just me
But this ain't love, this ain't
Lust for pleasure, I'm insatiable
I need to get it on

It ain't about you, it ain't about me
Cos this ain't love, this ain't
Lust for pleasure, I'm instatiable
I need to get it on
