Good work if you can get it

Rock boy is genital suck juice mad
His delicious apparatus would flutter and tremble
After pubic worship
He would freeze it in a jar and sell it to celebrity
lesbians

Good work if you can get it
They want to buy it in kilos
They want to buy it in grams

They want to buy it in kilos
They want to buy it in grams
You know they're down with the metric system
And they never fuck around

They want to buy it in kilos
They want to buy it in grams
You know they're down with the metric system
And they're paying by the pound

Good work if you can get it
