Hey girl, hey girl

I made you my first, you made me your last
I try to make it work when now my love is in your past
oh I don't know if I can make another space in my heart
everything right turned on
everything good turned back

It's so hard for me to figure out the man inside of you
and you try to make a sound I got and giving
something that I should
I'm not gonna even stress it out
I'd rather do without
I'm done

But when I'm half way about the door
tell me why I keep fall for you
falling for you, falling for you, falling for you, falling
for you,
how do I keep loving you (loving you,
loving you, loving you, loving you)ohh
why you gotta be complicated, complicated
ohh ohh

Got em in my feelings like I did you wrong
how you do the dark but then don't pick up to call
I ain't try to separate myself from the people in my life
they don't mean, me no good and that's a cruel to you

It's so hard for me to figure out the man inside of you
and you try to make a sound I got and giving
something that I should
I'm not gonna even stress it out
I'd rather do without
I'm done

But when I'm half way about the door
tell me why I keep fall for you
falling for you, falling for you, falling for you, falling
for you,
how do I keep loving you (loving you,

loving you, loving you, loving you)ohh
why you gotta be complicated, complicated
ohh ohh

Yeah complicated when all your feelings is confiscated
I give my love and hate to this money I've been chasing
I mean I like you baby but I love my occupation
and you know my money talking you know my
conversation
and I know you're heart to sacred
I'll take it I'll probably break it
to love me only naked don't need none of us thinking
I tell her that I'm leaving, she like boy you stunt
I'm like: you crazy?, she like: keep playing
Prada clothes a lover something for I was ..
waiting for in a minute, shawty let's have a toast
shawty buy you a coat, bottle body she dope
for the ..gotta get adios
I'm tryin I love her, don't know I'm..
see my love is stronger it's a..out of sipping
see my mental is different, I am heavenly gifted
she called me complicated, I can't even defend it

Late nights crying, you can't wire I try em
you say run it I ain't swell it, ohhh
what happened to the kissin and my lovin
if ain't it worth it than we just probably stop it
if you think I'm away from you then you buggin
find my strength to leave but when I'm half way about
the door
tell me why I keep fall for you
falling for you, falling for you, falling for you, falling
for you,
how do I keep loving you (loving you,
loving you, loving you, loving you)ohh
why you gotta be complicated, complicated
ohh ohh
