Haha  
Yeahh  
Travie, Bring the hook in

(Chorus)  
Doctor won't you come and help me take this pain away  
(away, away)  
Ohhh  
Doctor give me what I need to get me through the day  
(the day, the day)  
I want that feel good, that feel good, that real good  
yeahhh x2  
Doctor feel good help me

(Verse)  
Lately I been beside myself and it's unlikely to hide  
myself  
It's not like I like being by myself  
I wanna see the world but cant' decide myself  
Whether or not to get up off this couch  
Whether or not to get up out this house  
I wanna know what it's like to feel real good  
Is there something you could prescribe dr feel good  
I mean he's so happy she's so free  
Doctor what in the world is wrong with me  
I just need some ressurance  
I know my carrier won't be insurrin' this  
If you could just be earnest  
Oops I meant honest and make this promise  
If any of this makes sense doc I know I wasn't crazy just  
thoroughly convinced  
Go

(Chorus)  
Doctor won't you come and help me take this pain away  
(away, away)  
Ohhh  
Doctor give me what I need to get me through the day  
(the day, the day)  
I want that feel good, that feel good, that real good  
yeahhh x2

Doctor feel good help me

(Verse)

She got a set of lips like a sedative  
Everytime I kiss her it's like medicine  
Somethins tellin me no no don't let it?  
Cause everytime I do I end up upset again  
Haha  
And then it's back to the waitin' room  
Waitin' patiently for them to bring another patient to  
him  
Anything is possible especially when you see it in the  
hospital  
I hope dr feel good can fix me and help me find peace  
of mind before fifty  
[Mr.McCoy your up next]  
I made a detour quickly I tailed it to the exit door  
before they could get me  
It didn't take much to loose 'em  
But before I got home I came to a conclusion  
If feelin' means another appointment take two of these  
And don't expect a call in the morning

(Chorus)

Doctor won't you come and help me take this pain away  
(away, away)  
Ohhh  
Doctor give me what I need to get me through the day  
(the day, the day)  
I want that feel good, that feel good, that real good  
yeahhh x2  
Doctor feel good help me

Ladies and gentlemen  
Hey, pardon me, patients  
See what I'mma do right now is break it down  
Put your hands together  
Repeat after me, come on  
I feel good (I feel good)  
Real good (Real good)  
I feel good (I feel good)

(Chorus)

Doctor won't you come and help me take this pain away  
(away, away)  
Ohhh  
Doctor give me what I need to get me through the day  
(the day, the day)  
I want that feel good, that feel good, that real good  
yeahhh x2  
Doctor feel good help me
