It's a dark and stormfull night  
And the sol is gone down,  
It's a dark and stormfull night  
And the sol is gone down,  
The sol is gone down,  
It's dark and stormfull night  
I think it egentlig was  
A very good day  
It could have been verre  
That must I say  
Life can make me crazy  
When I get a smell  
But akkurat today  
I feel it goes like hell  
It's deilig, it's deilig  
Let's feir it,  
With the deilig news blues  
It's a dark and stormfull night  
And the sol is gone down,  
It's a dark and stormfull night  
And the sol is gone down,  
The sol is gone down,  
It's dark and stormfull night
