Verse 1:

I love waking up to the birds fly  
Waking up to the blue sky  
And sunshine

I love dancing out on the sidewalk  
Watching the rain go drip drop

Chorus:

Even if the rain won't stop  
Even when I'm falling down, down, down  
I'll hold my head up high  
Drink the rain and learn to fly away

Verse 2:

Sometimes we all hide behind the moon  
Behind the clouds, turn away from good mornings  
When we peak around our broken  
Hearts we will find, the sun still waiting

Bridge:

You were always  
There for me, In the  
broken times Your love lets me know  
I'm not alone, anymore
