Laura Imbruglia - Living On Light

Living on light
You're scary when you're sleeping
Living on light
I'm feeding while I'm breathing
Breathing on light
I ventured out into the woods
Living on light
I read every word in the book
Well I said it I guess but no-one knows
Taking my time
I can't see it but I still believe it's there
And I don't mind
My teeth are rotten and I'm told I'll [??] my hair
It's such a crime
(I'm a firm believer that no news is good news)
To see a spider with eight legs only using two
I only have to hear your voice to see your face
