Haha
Yeahh
Straps? Bring the hook in
(Chorus]
Doctor won't you come and help me take this pain
away, away away.
Ohhh
Doctor give me what I need to get me through the day
the day the day
I want that feel good, that feel good, that real good
yeahhh x2
Doctor feel good help me
(Verse 1]
Lately I been beside myself and disenlikely to hide
myself
It's not like I like being by myself
I wanna see the world but can't decide myself
Whether or not to get up off this couch
Whether or not to get up out this house
I wanna know what it's like to feel real good
Is there something you could perscribe dr feel good
I mean he's so happy she's so free
Doctor what in the world is wrong with me
I just need some ressurance
I know my carrier won't be insurrin' this
If you could just be ernest
Oops I meant honest and make this promise
If any of this makes sense doc I know I wasn't crazy just
thoroughly convinced
Go
(Chorus)

Doctor won't you come and help me take this pain
away, away away.
Ohhh
Doctor give me what I need to get me through the day
the day the day
I want that feel good, that feel good, that real good
yeahhh x2
Doctor feel good help me
(Verse 2]
She got a set of lips like a sedative

Everytime I kiss her it's like medicine
Somethin's? nope don't let it?
Cause everytime I do I end up upset again
Haha
And then it's back to the waitin' room
Waitin' patiently for them to bring another patient to
him
Anything is possible especially when you see it in the
hospital
I hope dr feel good can fix me and help me find?
[Mr.McCoy your up next]
I made a detour quickly I tailed it to the exit door
quickly before they could get me
It didn't take much to loose 'em
But before I got home I came to a conclusion
If feelin' means another appointment take two of these
And don't expect to call in the morning
(Chorus)x2
