"Dr. Feelgood"

Doctor
Won't you come and help me take this pain away?
Oh, oh, oh doctor
Give me what I need to get me through the day
I want that feel good
That feel good
That real good, yeah
I want that feel good
That feel good
That real good Dr. Feel Good, help me
Lately I been beside myself
It and it's unlike me to hide myself
It's not like I like being by myself I wanna see the world
but can't decide myself
Whether or not to get up off this couch
Whether or not to get about this house I wanna know
what it's like to feel real good
Is there somethin' you can prescribe Dr. Feel Good?
I mean he's so happy, she's so free Doctor, what in the
world is wrong with me?
I just need some reassurance I know my carrier wont be
insurin' this
If you could just be earnest
Oops, I meant honest and make this promise
If any of this makes sense let 'em know I wasn't crazy,
just thoroughly convinced
Doctor
Won't you come and help me take this pain away?
Oh, oh, oh doctor
Give me what I need to get me through the day
I want that feel good
That feel good
That real good, yeah
I want that feel good
That feel good
That real good Dr. Feel Good, help me

She got the set of lips like a sedative
Every time I kiss, it's like medicine
Somethin said to me no, no, don't let her in

'Cause every time I do, I end up upset again
And then it's back to the waitin' room
Waitin' patiently for them to bring another patient to
'em
Anything is possible
Especially when you see it in the hospital
I hope Dr. Feel Good can fix me
And help me find peace of mind before 50
(Mr. McCoy, you're up next)
I made a detour quickly hightailed it towards the exit
door before they could get me
It didn't take much to lose 'em
But before I got home, I came to a conclusion
That feeling good means another appointment take
two of these and don't expect a call in the mornin'
Doctor
Won't you come and help me take this pain away?
Oh, oh, oh doctor
Give me what I need to get me through the day
I want that feel good
That feel good
That real good, yeah
I want that feel good
That feel good
That real good Dr. Feel Good, help me
Ladies and Gentlemen, hey, pardon me, patients
See what I'mma do right now is break it down
Put your hands together
Repeat after me, come on
I feel good (I feel good)
Real good (Real good)
I feel good (I feel good)
Real good (Real good)
Doctor Won't you come and help me take this pain
away?
Oh, oh, oh doctor
Give me what I need to get me through the day
I want that feel good
That feel good
That real good, yeah
I want that feel good
That feel good
That real good Dr. Feel Good, help me
Yeah, I'll let this one ride out
Yeah, brought to you by yours truly Mr. Cee Lo Green
The delectable Smeezingtons
Thank y'all for comin' out,
God bless Good night Travie, by the away
