Dearest darling, look at me  
Stuck (a)way up on an old oak tree  
Looking down and as far as I can see... (a nice deep  
breath taken)  
Dearest darling, look inside  
Come with me and we'll walk for a while  
And I'll define with you beside  
Me beside you beside no one else will do besides

Dearest darling when we wake up  
Don't be cold and turn away, love  
Cos there's nowhere that I'd rather be  
Me beside you beside no where else I'd be besides

Dearest darling time will tell us  
If we'll fill up our empty wells  
But until then we're by ourselves  
Me beside you beside no one else will do  
Beside me beside you besides no one else will do
