Yeah, it's Travie!

Let's take a second and reflect on what we can do
To be smart and play apart in somethin' beautiful
Embrace life appreciate the fact you even breathing
'Cause we in the crosshairs and it's open season

If each one teaches one we got a good start
Your not a square cuz you care and have a good heart
We gotta speak soft, and listen harder
It's right in front of our face, but we don't even bother

(Uh) Think about it
(Uh) Think about it
Be about, dont be afraid to speak about it
(Uh) Don't cry about it
(Uh) even though they lie about it
Set a fire, inspire, don't turn it up to cheek about it

(Whoa) Can't change the world over night
(Whoa) But we can start by saving a life (Whoa)
One at a time, one at a time
(Whoa) So let's make history
(Whoa) And help out those in need (Whoa)
One at a time, one at a time
We can change a life

I be like my generations complaining about things that
we don't have
But if you think about it, we ain't got it so bad
Trust me, I know bad, and I met worst
And it'd be so sad, to sit it and let it get worst

It's a simple concept we need to grasp quickly
Before we end up wishing we did something differently
So go and spread the word, and not the virus
C'mon, let's get together try and put this all behind us

(Uh) Think about it
(Uh) Think about it
Be about, dont be afraid to speak about it

(Uh) Don't cry about it
(Uh) Even though they lie about it
Set a fire, inspire, don't turn it up to cheek about it

(Whoa) Can't change the world over night
(Whoa) But we can start by saving a life (Whoa)
One at a time, one at a time
(Whoa) So let's make history
(Whoa) And help out those in need (Whoa)
One at a time, one at a time
We can change a life

If I could change a life, then you can change a life
We can change a life, so let's just change a life
One at a time, one at a Time
If I could change a life, then you can change a life
We can change a life, so let's just change a life
One at a time, one at a time
We can change a life

(Whoa) Can't change the world over night
(Whoa) But we can start by saving a life (Whoa)
One at a time, one at a time
(Whoa) So let's make history
(Whoa) And help out those in need (Whoa)
One at a time, one at a time
We can change a life
