oh yeah  
I've seen you walking  
With your head up high  
You think you're all that  
Even though you're not

Then when I lose you  
I fall in a upside down world  
I can't seem to find you  
Thats when my fear place comes

Chorus:  
My fear place  
Is when your not around  
My fear place  
Is when I dont see your smile  
Oh I'll do anything to see you

oooh

No more la la la dreams  
Now theres only nightmares  
I was hoping this would never come  
But now its here to haunt me

Everyday I think of you  
I picture us in a dream land  
But my nightmares come through  
Its only darkness  
Oh im feeling so blue  
Thats when my fear place comes

Chorus:  
My fear place  
Is when your not around  
My fear place  
Is when I dont see your smile  
Oh I'll do anything to see you

Now my love is stronger  
It seems yours is weaker

How can this be  
My fear place  
Is just around the corner

Chorus:  
My fear place  
Is when your not around  
My fear place  
Is when I dont see your smile  
Oh I'll do anything to see you

Im sick and tired of waiting  
For our flower to bloom  
Your the water  
But since your gone  
It dies slowly

Now time has past  
We are older now  
I just cant help it  
I need you back  
But you grew out of our love...

My fear place...
